

Kylix SC100 Permanent Installation Galvanised Saddle Cupboard / Tack Trunk

A very compact and fully comprehensive tack trunk / saddle cupboard for the English saddle. Constructed using 1mm galvanised steel material ensuring a very high level of security and longevity.

The SC100 comes as a flat packed item without all the usual hassle of complicated construction. There is no need for special tools and the whole process of construction is very, very simple.

Due to its compact size in its flat packed form, the SC100 was developed for export, which of course saves a considerable amount of money in transport terms and ensures panels are not damaged in transit.

All in all a very clever competitive product suitable for all yards.

- High security door with double point locking bars
- 1 adjustable saddle rack
- 1 rug shelf
- 2 adjustable halter clamps with integral clothing hooks
- 2 clothing hooks
- 1 whip holder

Dimensions

1000mm (h) x 600mm (w) x 600mm (d)

Transportation

The saddle cupboard comes flat packed using folding hinges, therefore no tools are required to build it.

The unit can be assembled in 10 minutes ready for many years use.

Options

Many additional extra options are available including cast aluminium saddle supports, for the SC100. Please call us for a list.
